

# Loans provided by the Walloon Invests

## LOAN

The so-called “Walloon Invests” are active across Wallonia and operate as investment and financing companies, providing access to diversified and flexible financing solutions tailored to your business needs.

**TYPE OF PRODUCT** : secured, unsecured or subordinated loans, convertible loans, leasing, short term loans (with balloon or bullet profiles)

**GRANTED** : directly to your company

**DEVELOPMENT STAGE** : Creation, Growth, Transmission

**MINIMUM AMOUNT** : none

**MAXIMUM AMOUNT** : up to EUR 3 500 000 per company

Strengthening your company's cash flow/working capital, acquiring new equipment, financing the construction or acquisition of a building, preparing for external development or growth, developing innovation capacity, etc.

The Walloon Invests give your company access to diversified and flexible financing solutions tailored to its needs! They provide your company with financial leverage to complement your other sources of financing, by actively seeking a balanced solution between parties.

## How?

The Walloon Invests offer a wide range of complementary financial interventions adapted to each stage of your company's development, with a solution for each of your needs.

The Walloon Invests can thus intervene to support your company by granting an unsecured or guaranteed loan, a convertible loan, a subordinated loan, short term loans (with balloon or bullet profiles), a leasing, etc., alongside a bank loan or not.

In addition to offering financing solutions tailored to your company's specific needs, the Walloon Invests apply their external professional perspective to supporting the implementation of your strategic plan.

The Walloon Invests also offer (equity) investment solutions through equity participation in your company.
